

VCU Medical Center

Department of Psychiatry

Women's Mental Health Initiative

VCU's Department of Psychiatry is committed to the evaluation and treatment of women suffering from a wide range of psychiatric disorders and to improving the health and well being of patients and their families.

Our mission is to provide excellent mental healthcare to women while collaborating with other women's health specialists in an effort to further education and research.

The Women's Health Clinic offers evaluation and treatment of psychiatric disorders including:

- ✎ *Depression*
- ✎ *Anxiety Disorders*
- ✎ *Psychotic Disorders*
- ✎ *Mood, Anxiety & Psychotic Disorders* associated with pregnancy & post-partum symptoms
- ✎ *Adjustment Disorders* surrounding abortions, miscarriages, ectopic pregnancies & infertility
- ✎ *Peri-Menopausal & Post-Menopausal* mood & anxiety symptoms
- ✎ *Mood & Anxiety* changes associated with other areas including cancer diagnosis & sexual dysfunction
- ✎ *Premenstrual Syndrome (PMS) & Premenstrual Dysphoric Disorder*
- ✎ *Medication Management* in pregnancy & breastfeeding
